

MOJAVE DESERT AIR QUALITY MANAGEMENT DISTRICT

14306 Park Avenue Victorville, CA 92392-2310
760.245.1661 -- 800.635.4617 -- FAX 760.245.2022

AUTHORITY TO CONSTRUCT

B013309

If construction is not completed by the expiration date of this permit, it may be renewed for one additional year upon payment of applicable fees. Any additional extension will require the written approval of the Air Pollution Control Officer. This Authority to Construct may serve as a temporary Permit to Operate provided the APCO is given prior notice of intent to operate and the Permit to Operate is not specifically denied.

EXPIRES LAST DAY OF: JUNE 2024

OWNER OF OPERATOR (Co.#2497)

RBG Services Inc. DBA Green Desert Growers
9517 Cassia Road
Adelanto, CA 92301

EQUIPMENT LOCATION (Fac.#3892)

RBG Services Inc. DBA Green Desert Growers
9517 Cassia Road
Adelanto, CA 92301

Description:

SOLVENT EXTRACTION AND PURIFICATION PROCESS, CANNABIS consisting of: An ethyl alcohol based extraction process which includes extraction, refinement, and distillation and uses a 30L Rotary Evaporator.

CONDITIONS:

1. This Oil Extraction System shall be installed, operated and maintained in strict accordance with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of air contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit. [District Rule 204]
2. The only volatile organic compound (VOC) solvents that can be used in the Oil Extraction process (includes refinement and distillation) process is ethanol. Prior to changing solvent, the owner/operator must apply for a permit modification and have the approved, modified permit before making the change. [District Regulation XIII]
3. An operations log for this equipment must be kept for a period of two (2) years, must be kept on site, and must be made available upon request of District personnel. This log shall contain, as a minimum, the following information:
 - a. The date and hours of operation each time the oil extraction process is operated;
 - b. Daily, monthly, and calendar year totals of the gallons of solvent used or solvent (VOC) emitted (recorded in pounds) from this equipment; and,
 - c. Copies of the Environmental Data Sheet and/or Material Safety Data Sheet (MSDS) for each solvent and material used in the Oil

Fee Schedule: 7 (i)

Rating: 1 device

SIC: 2833

SCC: 30299999

Location/UTM(Km):
458E/3823N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Air Pollution Control Officer

Extraction process.
[District Rule 1302]

4. The owner/operator must take all steps necessary to preclude odor migration from this facility, including but not limited to:?
a. If using any internally-exhausting activated carbon cannister odor control devices, conduct carbon filter change outs whenever breakthrough is indicated (externally vented odor control devices require a separate District Permit);
b. Keeping doors and windows closed to the maximum extent possible; and
c. Isolating odor-emitting activities from other areas of the buildings through closing doors and windows.
[District Rule 402]

5. All solvent storage containers shall be maintained in a leak-free condition at all times when not in use.?
[District Rule 442]

6. This equipment shall not emit more than 25 pounds per day of extraction solvent (VOCs).?
[District Regulation XIII]

7. All VOC containing materials, whether in its form for intended use or as a waste or used product, shall be stored in nonabsorbent, non-leaking containers which shall be kept closed at all times, except when filling or emptying, and disposed of in a manner to prevent evaporation of VOCs into the atmosphere at the Facility.
[District Rule 442]

8. This facility shall not emit greater than 1190 pounds per month VOCs.
[District Rule 442]

9. Exhaust from this equipment shall not be vented to the atmosphere through any type of air pollution control device (APCD) without first obtaining an additional APCD permit from the District.
[District Rules 203, 204, and 219]

10. No internal combustion engines with a maximum rated power of 50 bhp or greater may be used at this facility without first obtaining an additional operating permit from the District.
[District Rules 203, 204, and 219]

11. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.
[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
