PERMIT TO OPERATE

B013546

Operation under this permit must be conducted in compliance with all information included with the initial application, initial permit condition, and conditions contained herein. The equipment must be maintained and kept in good operating condition at all times. This Permit to Operate or copy must be posted on or within 8 meters of equipment. If a copy is posted, the original must be maintained on site, available for inspection at all times.

EXPIRES LAST DAY OF: AUGUST 2024

OWNER OF OPERATOR (Co. #2462)

Pacific Auto Recycling Center
225 West Avenue H
Lancaster, CA 93534

EQUIPMENT LOCATION (Fac. #3858)

Pacific Auto Recycling Center
225 West Avenue H
Lancaster, CA 93534

Description:

SCRAP METAL SHREDDING & RECYCLING OPERATIONS consisting of:

EQUIPMENT

Capacity	Equipment Description
0	Tilt Table
0	Hammer Mill Manufactured by The Shredder Company, Model 6060LRT.
0	vibrating conveyor
0	elevating conveyor
0	ferrous stacking conveyor
0	non ferrous material conveyor

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accordance with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit. [District Rule 204]

Fee Schedule: B (N/A)

Rating: 1515 device

SIC: 5015

SCC: 30510107

Location/UTM(Km):
395E/3840N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Brad Poiriez
Air Pollution Control Officer

2. This equipment shall not be operated after December 31, 2019 unless powered by line power or natural gas fired internal combustion engines under valid district permits B013573 and B013584.

[District Rule 1302]

3. This facility shall not process more than 38,000 tons/year.

4. The owner/operator shall submit a written emissions minimization plan which addresses the following:

- a. feedstock management - facility measures to minimize/remove HAP containing materials from feedstock
- b. stockpile management - facility measures to add to/remove materials from covered stockpiles while minimizing emissions
- c. onsite emission minimization management practices which minimize/prevent fugitive emissions of post processed materials

The written plan must be approved by the District and kept available and onsite.

[District Rule 1401]

5. The o/o shall ensure that the materials used in the equipment contain sufficient natural and/or added moisture to preclude violations of District rules 401, 402 and 403. These rules pertain to opacity, dust blowing off of the property and nuisance. The o/o shall maintain sufficient water and equipment for its application in operable condition and on-site, and use it as necessary on material piles, haul roads, and in the plant to prevent violations of the above rules.

[District Rule 1302]

6. All post hammer mill conveyors shall be completely enclosed and all drop points shall be completely shrouded.

[District Rule 1401]

7. Post processing non-metallic residual and non-ferrous materials stockpiles shall be covered when not adding to or removing materials from the stockpile.

[Rule 1401]

8. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
