2. The only volatile organic compound (VOC) solvents that can be used in the closed loop Oil Extraction process is Ethanol. Prior to changing solvent type, the owner/operator must apply for a permit modification and have the approved, modified permit before use.
[District Regulation XIII]?

3. A log pertaining to the operation of this equipment must be kept for a period of two (2) years. The last two years' records must be kept on site, and must be made available upon request of District personnel. This log shall contain the following information:

- a. The date and hours of operation each time the Oil Extraction process is run; and,
- b. Daily, monthly, and calendar year totals of the gallons of solvent used and solvent emitted (recorded in pounds) from this equipment AND the facility; and,
- c. Copies of the Environmental Data Sheet and/or Material Safety Data Sheet (MSDS) for each solvent and material used in the Oil Extraction process.

[District Rule 442; 1302]?

4. The owner/operator must take all steps necessary to preclude odor migration from this facility, including but not limited to, odor management system operation, keeping doors and windows closed to the maximum extent possible, isolating odor-emitting activities from other areas of the buildings through closing doors and windows, and operating air filters continuously during cultivation activities.

[District Rule 402]?

5. All VOC containing materials, whether in its form for intended use or as a waste or used product, shall be stored in nonabsorbent, non-leaking containers which shall be kept closed at all times, except when filling or emptying, and disposed of in a manner to prevent evaporation of VOCs into the atmosphere at the Facility. For the purposes of this facility, VOC containing materials are the solvents used for extraction/purification processes (Ethanol). VOC containing materials do not include the cannabis materials such as leaves, post-processed plant material, or end-use cannabis products.

[District Rule 442]?

6. This equipment shall not emit more than 25 pounds per day of extraction solvent (VOCs).

[District Regulation XIII]?

7. This facility shall not emit greater than 1190 pounds per month VOCs.

[District Rule 442]?

8. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.
