Description:

HEPA VAC consisting of: Pullman-Holt Wet/Dry Asbestos Vacuum Cleaner with integral HEPA Filter System, Model 102ASB-12P, Serial No. 28702, with a maximum exhaust flow of 110 CFM, and having a rated capacity of 5 U.S. Gallons.

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.
2. After each abatement use, this equipment must be emptied and cleaned within a negative air enclosure, and filters and waste collected with this equipment must be disposed as friable asbestos waste. [District Rule 1320 - New Source Review For Toxic Air Contaminants and 40 CFR 61, Subpart M - NESHAP for Asbestos]
3. This HEPA Vac machine shall be tested and checked for leakage and rupture after each HEPA filter change and prior to commencement of any abatement project.
4. The HEPA filters used in this equipment shall be certified by the manufacturer to have a minimum control efficiency of 99.97% on 0.3 micron particles. Owner/operator shall provide documentation of the filters certification to District personnel upon request.

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 1795

SCC: 31100202

Location/UTM(Km):
473E/3956N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Air Pollution Control Officer

5. The operator shall keep adequate records for this HEPA Vac machine to verify: a. The number of working hours per day involving asbestos removal; and, b. The date and time of each HEPA filter replacement; and, c. The date and time of each machine addition/replacement. Records shall be maintained for a period of two (2) years and made available to District personnel upon request.
6. This equipment and/or operations pertaining to the use of this equipment may be subject to the requirements of the National Emission Standard for Hazardous Air Pollutants, Subpart M - NESHAP for Asbestos (40 CFR 61). In the event of conflict between these conditions and the NESHAP, the more stringent requirements shall govern.
7. This device may, at the discretion of the owner/operator, be used on any asbestos removal project in this District consistent with proper notification per Rule 1002(d)(5)(A)(i) and (ii) and upon payment of annually assessed fees per Rule 306.
8. The o/o shall notify the Compliance section at least five working days before commencing operation at any District location.
