Executive Director

2. Operation of this equipment shall be conducted in compliance with data and specifications submitted with the application under which this permit is issued unless otherwise noted below.

[District Rule 204]

3. All abrasive blasting operations conducted at this facility shall comply with Title 17 California Code of Regulations sections 92000-92530.

4. Abrasive blasting operations shall only be conducted using wet abrasive blasting or abrasives certified for permissible dry outdoor blasting.

[District Rule 1302; 17 CCR 92000]

5. The owner/operator shall maintain a log which contains at a minimum the following information. The log shall be maintained current, on-site for a minimum of two years and provided to District, State or Federal personnel on request.

- a. type of abrasive blast material used;
- b. substrate of item to be blasted;
- c. blast nozzle diameter;
- d. operating pressure in psi;
- e. date and duration (in hours) of use (summarized annually) or monthly total of blast media consumed (summarized annually);
- f. percent of total operating time wet blasting is conducted; and
- g. location of blasting operations.

[District Rule 1302; 17 CCR 92000]

6. This facility shall comply with District Rules 401, 402, and 403, which corresponds to Visible Emissions, Nuisance, and Fugitive Dust, respectively.

7. This equipment shall not operate more than 7-hours per days and no more than 2548 hours per year.[District Rule 1302(C)(2)(a)]

8. Emissions from abrasive blasting operations shall not exceed the following visible emission limits for a period or periods aggregating more than three minutes in any one hour:

- a. Fully enclosed blasting- 20 percent opacity (Ringleman 1).
- b. Open outdoor blasting- 40 percent opacity (Ringleman 2).

[17 CCR 92200]

Note:Visible emission observations shall be conducted in accordance with the requirements set forth in Title 17 CCR 92000-92530.

9. An abrasive blasting operation conducted under one or more of the following conditions is not required to be conducted within a fully enclosed area:

- a. steel or iron shot/grit is used exclusively;
- b. the item to be blasted exceeds 8 feet in any dimension; or
- c. the surface being blasted is situated at its permanent location or no further away from its permanent location than is necessary to allow the surface to be blasted.

[17 CCR 92500]

10. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
