

MOJAVE DESERT AIR QUALITY MANAGEMENT DISTRICT

14306 Park Avenue Victorville, CA 92392-2310
760.245.1661 -- 800.635.4617 -- FAX 760.245.2022

AUTHORITY TO CONSTRUCT

A012758

If construction is not completed by the expiration date of this permit, it may be renewed for one additional year upon payment of applicable fees. Any additional extension will require the written approval of the Air Pollution Control Officer. This Authority to Construct may serve as a temporary Permit to Operate provided the APCO is given prior notice of intent to operate and the Permit to Operate is not specifically denied.

EXPIRES LAST DAY OF: FEBRUARY 2026

OWNER OF OPERATOR (Co.#100)

Metropolitan Water District of So Calif
158000 MWD Road
Parker Dam, CA 92267

EQUIPMENT LOCATION (Fac.#2352)

MWD - Various Locations
District Wide
MDAQMD, CA 92392

Description:

ABRASIVE BLASTER, PORTABLE consisting of: Clemco Industries Corporation Power Gun Abrasive Blaster.

CONDITIONS:

1. This equipment shall only be operated and maintained in strict accord with the manufacturer's recommendations. Operation of this equipment shall be conducted in compliance with data and specifications submitted with the application under which this permit is issued unless otherwise noted below.

2. This unit shall not operate more than 2100 hours on an annual basis.
[District Rule 1320]

3. The abrasive feed rate shall not exceed 950 lb/hr.
[District Rule 404]

4. This abrasive blasting equipment must be operated such that no visible emissions from the equipment result in an opacity greater than 20 percent on the Ringelmann Chart for a period or periods aggregating more than three (3) minutes in any one hour.
[District Rule 401(a)]

5. This abrasive blasting equipment must be operated such that no visible fugitive dust is visible in the atmosphere beyond the property

Fee Schedule: 7 (e) Rating: 1 device SIC: 4941 SCC: 30900299 Location/UTM(Km): 760E/3798N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Brad Poiriez

Air Pollution Control Officer

line of this facility.
[District Rule 403(a)]

6.This abrasive blasting equipment shall only be used without containment controlled by an air pollution control device (open blasting) when one or more of the following conditions are met:

- (a) Steel or iron shot/grit is used exclusively;
- (b) The item to be blasted exceeds 8 feet in any dimension; or
- (c) The surface being blasted is situated at its permanent location or no further away from its permanent location than is necessary to allow the surface to be blasted.

[Title 17 CCR 92500(b)]

7.When this abrasive blasting equipment is used for open blasting it must use, exclusively, abrasives certified for permissible dry outdoor blasting by the California Air Resources Board (CARB) pursuant to Title 17 CCR 92530.

[Title 17 CCR 92500(c)(4)]

8.This abrasive blasting equipment shall be used within a containment controlled by an air pollution control device with a control efficiency certified to meet HEPA filtration (99.97% for PM of 0.3 microns or larger) whenever toxic materials are present on the material being blasted [District Rule 1320]. The Air pollution control device used to control contained blasting operations must have a valid District permit. [District Rule 201]

9.The owner/operator shall maintain an operations log for this equipment containing at a minimum:

- (a) Date, location, and hours of each equipment use;
- (b) Type and throughput of abrasive used, including proof of CARB certification for abrasives used in open blasting;
- (c) Description of the blasting project, indicating the presence of toxic materials;
- (d) Record of the use of an enclosure, if required, and the permit number of the associated air pollution control device;
- (e) Maximum abrasive feed rate in lb/hr; and,
- (f) 12 month rolling average of PM10, VOC and HAP emissions from the operation of permitted equipment co-located on one "facility" as defined in District Rule 1301(Y).

The log may be maintained at the corporate office and/or on-site for at least two (2) years and made available to Federal, State, and/or District personnel upon request.

10.If the compressor used to supply air to this equipment is powered by an internal combustion engine greater than, or equal to, 50 brake-horsepower, the engine must have a valid District permit or a Statewide Portable Equipment Registration Program (PERP) registration.

[District Rule 201 and 219]

11.This equipment is a possible source of hazardous emissions and shall not be operated and/or located within 1,000 feet of a public or private school (kindergarten through 12th grade) of more than 12 students for more than 30 consecutive days without completing the notification required by California Health and Safety Code, Section 42301.6.

12.A facility wide Comprehensive Emission Inventory Report (CEIR) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), Health & Safety Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]

13.Emissions from this facility as defined by District Rule 1301(Y) shall be limited to:

- (a) 20 tons/year VOC;
- (b) 12 tons/year PM10;
- (c) 8 tons/year of any HAP; and,
- (d) 20 tons/year of any combination of HAP.

Compliance with these limits shall be demonstrated via the record keeping requirements of condition 9.
