Capacity	Equipment Description
0	Auxiliary Cement Silo, Portable (District Permit T006893)

**CONDITIONS:**

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.

[District Rule 1302]

2. The o/o shall ensure that the materials used in the equipment contain sufficient natural and/or added moisture to preclude violations of District rules 401, 402 and 403. These rules pertain to opacity, dust blowing off of the property and nuisance. The o/o shall maintain sufficient water and equipment for its application in operable condition and on-site, and use it as necessary on material piles, haul roads, and in the plant to prevent violations of the above rules.

[District Rule 1302]

3. This equipment and associated operations shall not discharge an exhaust stream that exhibits opacity greater than twenty percent (Ringlemann 1).

[District Rules 204 and 401]

4. The owner/operator shall limit the annual production to 265,000 cubic yards, based on a rolling 12 month summary.

[District Rule 1302]

5. The owner/operator (o/o) shall maintain a daily log of all material throughput amounts so as to ensure compliance with condition 4. Additionally, a log shall be kept of all inspections, repairs, and maintenance on equipment. Such logs or records shall be maintained at either the facility or corporate office for at least two (2) years and made available to District, State, or Federal personnel upon request.

[District Rule 204]

6. Cement and/or Fly Ash Truck unloading shall only occur through a properly operating pneumatic truck unloading system, and only into storage silos, venting to properly operated and maintained Bin Vent Air Pollution Control Device.

[District Rules 204 & 1303]

7. Electrical power for this facility shall only be provided by grid power or by an engine (or engines) with a valid District permit.

[District Rule 204]

8. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b); H&S Code 39607 & 44341-44342; and 40 CFR 51, Subpart A]
