**EQUIPMENT LOCATION (Fac.#67)**

Nu-Way Quality Cleaners  
15595 8th Street  
Victorville, CA 92392

**Description:**

DRY CLEANING SYSTEM consisting of: an American Suprema, Inc Model 850 S2 (no vent refrigerated unit). Cleaning Solvent: Perchloroethylene

**CONDITIONS:**

1. Change of type solvent from that cited in equipment description shall not be made without written approval from the District.
2. Refrigerated condensers shall be operated to ensure that exhaust gases are recirculated until the air-vapor stream temperature on the outlet side of the refrigerated condenser, downstream of any bypass, is less than or equal to 45 degrees F. (7.2 degrees C).
3. Primary control systems, other than refrigerated condensers, shall be operated to ensure that exhaust gases are recirculated until the perchloroethylene concentration in the drum is less than or equal to 8,600 ppmv or to the manufacturers limit - which ever is less, at the end of the drying cycle, before the machine door is opened and any fugitive control system activates.
4. The trained operator inspects the dry cleaning system at least once a week for liquid and vapor leaks using either a halogenated-hydrocarbon detector or a portable gas analyzer.
5. Records shall be kept on approved District forms> The forms are: "POUNDS OF CLOTHES/LOAD", "OPERATIONS AND MAINTENANCE CHECKLIST", "WEEKLY LEAK INSPECTION CHECKLIST", "ANNUAL REPORT", AND "SERVICE AND REPAIR LOG".

Fee Schedule: 7 (a)

Rating: 1 device

SIC: 7216

SCC: 40100101

Location/UTM(Km):  
472E/3809N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Air Pollution Control Officer

6. The dry cleaning machine must be a closed loop (dry to dry).
  
7. The facility must have at least one trained operator. Attach a copy of the trained operator's certificate to the posted permit.
  
8. All leaks are to be reported on a Weekly Leak Inspection Checklist. Any liquid leak or vapor leak shall be repaired within 24 hours of detection. If a leak cannot be repaired within 48 hours the owner/operator shall notify the District by telephone or by fax.
  
9. Solvent and solvent waste will, at all times, be handled in a manner to preclude or minimize emissions of hydrocarbons into the air. Waste solvent/sludge will be maintained in sealed container until proper disposal is made. Contact San Bernardino County Fire Department Hazardous Material Division, (909) 387-8925, for further information pertaining to waste solvent/sludge disposal.
