CONDITIONS:

1. Operation of this equipment shall be conducted in compliance with data and specifications submitted with the application under which this permit issued unless otherwise noted below.

[District Rule 1302]

2. An operation log shall be maintained on-site for at least two (2) years and be made available to District personnel on request. This log shall contain, as a minimum, the amount of wastewater received and treated each day.

[District Rule 1302]

3. This equipment shall only be operated/maintained in strict accord with manufacturer's/supplier's recommendations; sound engineering principles; and/or federal, state regional and local wastewater discharge permits.

[District Rule 1302]

4. This system shall not process more than 450,000 gallons per day.

[District Rule 1302]

5. A facility-wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), Health and Safety Code 39607 and 44341-44342, 40 CFR 51, Subpart A]
