 Executive Director

1. Materials processed under this permit shall contain sufficient natural and/or added moisture to ensure compliance with District rules 401, 402 and 403. Sufficient equipment and water shall be maintained in good operating condition and used as necessary to preclude violations of these rules.

2. The bin vent shall be in operation at all times when the silo is being filled.

3. The lime slurry equipment described above, but not necessarily the silo, shall not operate unless vented to the baghouse, which is properly functioning under valid District permit C007758.
