Lucerne Valley, CA 92356

By: **COPY**  
**Brad Poiriez**  
Executive Director

1. The o/o shall install, operate and maintain this equipment in strict accord with those recommendations of the manufacturer/supplier, and sound engineering principles which produce minimum emissions of air contaminants.
  
2. Operation of this equipment shall be conducted in accordance with all data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
  
3. Conveyors and transfer points shall either be fully covered or the Materials processed shall contain sufficient natural or added moisture to ensure compliance with all applicable District Rules such as those in Regulation IV (401, 402 and 403.2).
  
4. A production and operation log shall be maintained current and on-site for two (2) years, and provided to District personnel upon request. This log shall contain, at a minimum:
  - a. Daily tonnage of chipped tires received;
  - b. Monthly tonnage of chipped tires received;
  - c. Yearly (Calendar Year) tonnage of chipped tires received.
  
5. There shall not be any visible emissions associated with this chipped tires handling and processing equipment.
  
6. This facility shall not chip tires for resale or off-site use.
  
7. Roadways, and work areas shall be kept wetted to control fugitive dust. Equipment to properly wet these areas shall be maintained in operable condition on-site and used as necessary to assure compliance.
