INACTIVE

C010324

Inactive type Permit has no description information.

EXPIRES LAST DAY OF: MARCH 2012

OWNER OF OPERATOR (Co.#1795)

Las Vegas Paving
4420 South Decatur Blvd.
Las Vegas, NV 89103

EQUIPMENT LOCATION (Fac.#3044)

Las Vegas Paving - Yates Well Rd
Intersection Yates Well & I-15
Mountain Pass, CA 92364

Description:

BAGHOUSE - AGGREGATE PLANT consisting of: Name of Manufacturer: Pneumafil Corporation Model Number: 8.5-159-8 Serial Number: 631-742-14758-AA Fan Size: Type AW-45 Size 40 MW Blower Number of Bags 156 Bag Size: 5" diameter by 8 feet long Bag Material: 16 oz. chinged poly/felt with flanged top band Cloth Area: 10.473 per bag Air Flow Rate: TBD Pressure Drop: TBD

CONDITIONS:

1. This baghouse shall be functioning at all times that the Aggregate Crushing & Screening Plant covered under Permit B010183 is in operation.
2. The o/o shall install, operate and maintain this dust collector in strict accord with those recommendations of the manufacturer/supplier, and sound engineering principles which produce minimum emissions of air contaminants.
3. The PM-10 emissions shall not exceed 0.01 grains/dscf. Verified using California Method 5.
4. This equipment shall not discharge into the atmosphere an exhaust stream that exhibits an opacity during any one hour (ten 6-minute averages) greater than Seven (7) percent opacity from all stack, such as the air separator (40 CFR 60.672(a)(2)),
5. The differential pressure drop across the baghouse shall be in the range of 0 to 5 inches of water column. With a normal operating average of 3 inches of water column.

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 2951

SCC: 30502501

Location/UTM(Km):
634E/3927N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

6. The owner/operator (o/o) shall have a maintenance plan for this baghouse. This plan, at a minimum, shall require a log which includes visual emissions determination on a weekly basis, recording of differential pressures across the baghouse and inspection/repairs frequency.

7. The o/o shall maintain an inventory of replacement bags on-site at all times which will ensure compliance with applicable Rules of District Regulation IV.

8. The owner/operator shall conduct a minimum program of inspection and maintenance on this equipment. The owner/operator shall maintain current and on-site for five (5) years a log of the following information, which shall be provided to District personnel upon request:

- a. Weekly record the differential pressure drop across the baghouse
- b. Monthly baghouse stack observation date and result (using USEPA Method 22, and USEPA Method 9 if necessary);
- c. Quarterly bag and bag suspension system inspection date and results;
- d. Date of bag replacements; and,
- e. Date and nature of any system repairs.

9. Source testing will be required if the 7% opacity limit of condition 4 is exceeded 2 or more times in any 3 month period. The owner/operator shall conduct all required compliance tests in accordance with a District-approved test plan. Thirty (30) days prior to the compliance/certification tests the o/o shall provide a written test plan for District review and approval. Written notice of the compliance/certification test shall be provided to the District ten (10) days prior to the tests so that an observer may be present. A written report with the results of such compliance/certification tests shall be submitted to the District within forty-five (45) days after testing.

10. This facility shall be maintained and operate in compliance with all applicable District Rules and Federal New Source Performance Standards (NSPS) 40 CFR 60, Subpart OOO; Standards of Performance for Nonmetallic Mineral Processing Plants.

In the event of conflict between these Permit Conditions, District Rules, and the NSPS, the more stringent requirement(s) shall govern.

11. The owner/operator shall notify the District Stationary Sources Section 10 days prior to operation of this facility.
