EQUIPMENT

Capacity	Equipment Description
24	Incinerator (24 square feet of grating)

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.

[District Rule 1302]

2. This equipment shall be operated by personnel properly trained in its operation.

[District Rule 1302]

3. A temperature of not less than 1400 degrees F shall be maintained in the afterburner when the equipment it serves is in operation.

[District Rule 1302]

Fee Schedule: 4 (N/A)

Rating: 24 square feet

SIC: 7261

SCC: 31502103

Location/UTM(Km): 473E/3822N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Air Pollution Control Officer

4.The o/o shall use regulated pipeline natural gas in this equipment. When natural gas service is interrupted, the o/o may use LPG.
[District Rule 1302]

5.This facility shall not process more than twelve (12) bodies per day, and shall not operate more than 250 days per calendar year, and shall not operate more than 3000 hours in any single calendar year.
[District Rules 1302 and 1320]

6.The combined throughput of bodies processed at this facility shall not exceed 1500 any consecutive 12-month period.
[District Rules 1302, 1320 and 1520]

7.The o/o shall maintain an operational log for this equipment. This log shall be maintained current, on-site for a minimum of two years and provided to District, State or Federal personnel on request. The log shall contain the following at a minimum:

- a. Date, weight incinerated per batch, start time of each batch, and hours operated on that day;
- b. Cumulative monthly and annual hours operated;
- c. Volume of natural gas and/or LPG used on a calendar month basis;
- d. Date and time of all upsets and/or malfunctions;
- e. A description of all repairs or maintenance performed with date performed; and,
- f. the number of bodies processed per day, per month, and per year.

[District Rules 1302, 1320 and 1520]

8.The owner/operator shall operate the equipment in a manner that precludes any visible emissions from the stack.
[District Rule 1302]

9.A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
