Description:

GENERATOR, DIESEL consisting of: Caterpillar generator set mounted in a trailer, Model No 3306DI, HP268-KW175 and Serial No 85Z04840. For additional information see District permits B003223 & M003224.

CONDITIONS:

1. Pile leaching is the only operation currently being performed at this location. This generator provides all of the power required for this level of production. The generators permitted on M003224 and M003225 are backup units for this generator. All three (3) generators shall be equipped with hour/run meters.
2. A log shall be maintained that records the number of hours each of the three (3) generators are operated.
3. The owner/operator (0/0) shall use ONLY diesel fuel whose sulfur concentration is less than or equal to 0.05% by weight basis.
4. The o/o shall not use any fuel in this generator other than diesel without the written prior approval of the District. The o/o may use the supplier's sulfur analytical data, but at the discretion of the District, shall take a sample of the fuel and submit it for analysis by an independent laboratory. The results of said analyses, by ASTM method D 2622-82, shall be logged.
5. The o/o shall maintain the log current, on-site for a minimum of 2 years and provide them to District personnel on request.
