5. The log shall be maintained current, on-site for a minimum of 2 years and provided to District personnel on request. (Note: the daily log information provides the basis for the Toxic Emission Inventory consistent with AB 2588.)

6. No photochemically reactive portion of the coating is permitted. This includes the coating as purchased and any solvents which may be used as diluent, thinner, reducer or cleaner.

7. The owner/operator (o/o) shall operate equipment described in this permit in strict accord with the recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emission of air contaminants. Spray equipment shall be given unique identification marks attached thereto prior to use under this permit.

8. The o/o shall be limited to operating to 2040 hours per calendar year.
