

MOJAVE DESERT AIR QUALITY MANAGEMENT DISTRICT

14306 Park Avenue Victorville, CA 92392-2310
760.245.1661 -- 800.635.4617 -- FAX 760.245.2022

INACTIVE

P009270

Inactive type Permit has no description information.

EXPIRES LAST DAY OF: MAY 2016

OWNER OF OPERATOR (Co.#1265)

National Environmental Fiberglass, LLC
9444 Cassia Rd
Adelanto, CA 92301

EQUIPMENT LOCATION (Fac.#2186)

National Environmental Fiberglass - Adelanto
9444 Cassia Road
Adelanto, CA 92301

Description:

FIBERGLASS SPRAY GUN consisting of: BRINKS, MODEL 207-12200 POLY CRAFT LEL WET OUT

CONDITIONS:

1. This equipment shall be operated/maintained in strict accord with manufacturer's/suppliers recommendations and/or sound engineering principles.

2. All coatings, monomers, diluents, thinners and solvents shall comply with District Rules 1115, 1162, and 442 in their entirety. These rules pertain to Metal Parts & Products Coating Operations; Polyester Resin Operations, and Usage of Solvents Rules respectively. [Rule 204]

3. The o/o shall determine the VOC and HAP emissions from the use of gelcoats and resins in reinforced plastic composites production per the appropriate equation in 40 CFR 63 subpart WWWW Table 1.

4. The owner/operator shall maintain a log for the facility, which, at a minimum, contains the information specified below. This log shall be maintained for a minimum five (5) years, available on site for a minimum of two years, and shall be provided to District personnel on request:
 - a. Date of operation;
 - b. Manufacturer, type, and amount (in pounds or gallons) of resin, coating and solvent used (preparation, thinning, cleanup or other);
 - c. VOC content of each type of resin, coating and solvent in pounds per gallon or grams per liter or percent (weight/weight);
 - d. Photochemically reactive organic solvent and organic solvent content of each type of resin, coating and solvent in pounds per gallon

Fee Schedule: 7 (c)	Rating: 1 device	SIC: 3564	SCC: 30800722	Location/UTM(Km): 459E/3826N
---------------------	------------------	-----------	---------------	---------------------------------

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

or grams per liter or percent (weight/weight);

e. Keep daily records of VOC containing material and/or organic solvents used;

f. Total amount of VOC and/or organic solvents used per calendar month;

g. Total amount of photochemically reactive organic solvents used per day.

5. The owner/operator shall comply with the polyester resin and gelcoat application technique requirements in section C(1) of MDAQMD Rule 1162, and shall not exceed the monomer limits for each applicable resin use in Table 1 in Section C(2) of MDAQMD Rule 1162. [Rule 204; Rule 1162]

6. Emissions from this facility shall be less than the following limits:

1. 24.9 tpy of VOC calculated on a 12 month rolling sum

2. 9.9 tpy of a single HAP and 24.9 tpy of all HAP's calculated on a 12 month rolling sum

These emission limits classify this facility as an SM80 source, which means that they are not a major source but that emission limits are greater than 80% of the major source threshold.

Compliance with these limits shall be verified with monthly facility VOC and HAP emission summaries and an annual emissions inventory. Monthly emissions summaries shall be calculated using a District-approved method, with at least the last five years of monthly emissions summaries maintained and available to be provided to District, State or Federal personnel upon request. A summary report of the 12 month rolling sums shall be submitted to the District and to USEPA postmarked no later than July 30 of each year. The summary report will consist of twelve monthly (January 1 to December 31) sum values. The annual emission inventory shall be due no later than July 30.

The summary report shall be kept current, on-site for a minimum of two years, retained for 5 years, and be provided to District, State, and Federal personnel on request
