Air Pollution Control Officer

5.The owner/operator shall not use this abrasive blast system whenever toxic materials are present on the material being blasted unless the blasting is performed in an enclosed area vented to a separately permitted HEPA Filtration equipment. [Rule 204; Rule 1320]

6.A record log shall be kept with the equipment and made available to District, State, or Federal personal upon request. This log shall contain the following as a minimum;

- a) Date and location of equipment use;
- b) Type and throughput of abrasive used
- c) Results of toxics analyses on the material being blasted, if available, and
- d) Record of the use of an enclosure, if required, and the permit number of the associated separate HEPA Filtration System. [Rule 204]

7.This equipment shall be operated in strict accord with these permit conditions, California Code of Regulations Title 17 Subchapter 6, Abrasive Blasting, and all applicable District Rules and Regulations; in the event of conflict, the more stringent requirements shall govern. [Rule 204]

8.If the compressor used to supply air to this equipment is powered by an internal combustion engine greater than 50 bhp, the engine shall be a District Permitted IC Engine, or a Statewide Portable Equipment Registration Program (PERP) registered Engine. [Rule 204]
