Description:

GENERATOR consisting of: Caterpillar, Model 3306 DITA dry engine, turbocharged, aftercooled, 4 degree retarded timing, diesel fueled IC engine rated 285 bhp at 2,200 rpm driving a electricity generator.

CONDITIONS:

1. This engine shall operate in strict accord with all information submitted with the application unless specifically exempted hereunder.
2. This unit shall be fitted with a fuel meter if one has not been provided.
3. This unit shall use only diesel fuel whose sulfur content is not greater than 0.05% on a mass per mass basis.
4. A log shall be maintained for this unit which records:
 - a. Starting and stopping times daily as recorded from the operation meter,
 - b. Fuel consumption for the day of operation in gallons,
 - c. Repairs/maintenance performed during the project.

This log shall be maintained current, on-site for the duration of the project and provided to District personnel on request.

5. The total fuel used by this equipment and that described in District permits B003185 and B004301 shall not exceed 106,000 gallons per calendar year.

Fee Schedule: 1 (c) Rating: 285bhp SIC: 1442 SCC: 99999999 Location/UTM(Km): 473E/3956N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
