CONDITIONS:

1. This equipment shall operate in strict accord with all information submitted with the application unless specifically exempted hereunder.
2. The crushing/screening plant shall not be operated unless the spray system is operating properly.
3. Materials processed by this plant equipment in addition to haulways, roads and throughways of the plant shall contain sufficient natural and/or added moisture to ensure compliance with District rules 401 and 403. Sufficient water, chemical agents and equipment in operable condition shall be maintained on-site and used as necessary to ensure compliance with the above mentioned rules.
4. Operation of the equipment described in this permit shall be restricted to a maximum throughput to the Jaw Crusher of 500 t/h. The o/o shall install a device which measures this throughput if one has not been previously provided. An alternate means of estimating the throughput to the satisfaction of the District will be considered.
5. The operation of this crushing plant is limited to 2080 h/year. The owner/operator, o/o, shall log the throughput to the jaw crusher on a daily basis.
6. The o/o shall maintain logs current, on-site for a minimum of 2 years and provide them to District personnel on request.
