CONDITIONS:

1.This equipment shall only be installed, operated, and maintained in strict accord with those manufacturer's/supplier's recommendations and/or sound engineering principles which produce the minimum emissions of air contaminants. Unless otherwise noted, operation of this equipment shall be conducted in compliance with all data and specifications submitted with the application for this permit. This equipment shall be operated in compliance with applicable federal, state, regional and local waste water discharge permits.

[District Rule 1302]

2.The owner/operator shall maintain a operations log for this unit current and on-site (or at a central location) for a minimum of five (5) years, and this log shall be provided to District, State and Federal personnel upon request. This log shall contain, as a minimum, the information specified below for each day of use:

- a. Amount of wastewater received and treated; and
- b. Descriptions of all malfunctions and corrective actions taken.

[District Rule 1302]

3.A facility-wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), HSC 39607 and 44341-44342, 40 CFR 51, Subpart A]
