Description:

ASPHALT OIL HEATER consisting of: Heatec, Model ESII-200, 1.75 MMBtu/hr, Propane (LPG) fuel, diesel back-up, and flue gas recirculation (FGR) heating tanks under B008932.

CONDITIONS:

1. This equipment shall not be operated unless the asphalt tanks are vented to the functioning air pollution control devices under valid District Permit C008944 and C008945.
2. This equipment may be fired with propane (LPG), or, as back up, #2 diesel fuel oil whose sulfur concentration is less than or equal to 0.05% on a weight per weight basis.
3. A daily production and operation log shall be maintained current and on-site while in operation (or at the principal place of business when on-site operations are discontinued), and shall be provided to District personnel upon request. This log shall contain, at a minimum:
 - a. The amount of blended asphalt produced each day in gallons;
 - b. The number of hours operated each day;
 - c. The cumulative number of hours operated each calendar year; and,
 - d. The type and amount of fuel burned each day (in gallons or cubic feet).
4. This equipment does not require a regularly scheduled emission compliance test. However, emission compliance testing may be required at the discretion of the District.

Fee Schedule: 2 (c)

Rating: 1750000 Btu

SIC: 3273

SCC: 30500212

Location/UTM(Km):
529E/3855N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
