UNOFFICIAL

CONDITIONS:

1. Operation of the equipment described above shall be conducted as described in the data and specifications submitted with the application under which this permit is issued unless specifically exempted hereunder. [Rule 204]

2. This rock crushing plant shall only be operated/maintained in strict accord with manufacturer's supplier's recommendations and/or sound engineering principles. [Rule 204]

3. Roadways, work areas, stockpiles, and materials being processed shall be kept wetted to control fugitive dust. Equipment to properly wet the material being processed shall be maintained in operable condition on-site and used as necessary to assure compliance. [Rule 401, 403, 1303]

4. Water sprays shall be used at conveyor points of charge and discharge, crushers, feeders, and screens, to control fugitive emissions. [Rule 401, 403, 1303]

5. Daily production logs shall be maintained on-site for at least two (2) years and made available to District personnel upon request. This log shall contain, as a minimum, the tons of product produced per day (summarized monthly), and the total number of hours operated. [Rule 1303]

6. The owner/operator shall comply with all applicable Rules and Regulations of the District. Applicable rules include, but are not necessarily limited to Rules 401, 402, and 403.

7. This equipment shall not be operated unless powered by the 300 bhp internal combustion engine operating under valid district permit B008949. [Rule 204]

8. Annual (rolling 12 month sum) throughput shall not exceed 75,600 tons (based on 150 tph and 504 hour/year). [Rule 1303]
