

MOJAVE DESERT AIR QUALITY MANAGEMENT DISTRICT

14306 Park Avenue Victorville, CA 92392-2310
760.245.1661 -- 800.635.4617 -- FAX 760.245.2022

AUTHORITY TO CONSTRUCT

C015288

If construction is not completed by the expiration date of this permit, it may be renewed for one additional year upon payment of applicable fees. Any additional extension will require the written approval of the Air Pollution Control Officer. This Authority to Construct may serve as a temporary Permit to Operate provided the APCO is given prior notice of intent to operate and the Permit to Operate is not specifically denied.

EXPIRES LAST DAY OF: MARCH 2027

OWNER OF OPERATOR (Co. #2261)

Clark Pacific Precast, LLC
9367 Holly Rd.
Adelanto, CA 92301

EQUIPMENT LOCATION (Fac. #3628)

Clark Pacific Adelanto Precast Plant
9367 Holly Rd.
Adelanto, CA 92301

Description:

BAGHOUSE, CONCRETE BATCH PLANT consisting of: a WamFlo Front Dust Collector, Model # FNS2J07PV22A, having 8 cartridges made of pleated non-woven hydrophobic-oleophobic polyester, with a total filter area 132 sq. ft., and blower rated 2.2 hp with a maximum CFM 1765. Unit has a single compartment and has overall dimensions 6' H x 2' 7" W. Unit is rated at controlling PM with a design efficiency of 99.9%.

CONDITIONS:

1. The owner/operator (o/o) shall maintain this baghouse in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of air contaminants. Unless otherwise noted below, operation of this equipment shall be conducted in compliance with all data and specifications submitted with the application under which this permit is issued.

[District Rule 204]

2. This air pollution control device must operate concurrently with the cement transfers and mixers under District Permit B015287 (CONCRETE BATCH PLANT, ARCHITECTURAL).

[District Rules 401, 404, 405, and 1303(B) - Offsets, basis: <15tpy of PM-10]

Fee Schedule: 7 (a)

Rating: 1 device

SIC: 3272

SCC: 30501112

Location/UTM(Km):
459E/3826N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

3. Visible emissions from this equipment shall not exceed an opacity equal to, or greater than, twenty percent (20%) for a period aggregating more than three (3) minutes in any one (1) hour, excluding uncombined water vapor [District Rule 401]. This equipment shall not discharge air contaminants or materials constituting a nuisance to any considerable number of persons or to the public [District Rule 402]. Roadways, work areas and stockpiles shall be kept sufficiently moist to control fugitive dust, and no visible emissions shall extend beyond the property line of the emission source [District Rule 403]. Equipment to properly wet the material being processed shall be maintained in operable condition on-site and used as necessary to assure compliance with this condition.
[District Rules 204, 401, 402, and 403]

4. The owner/operator shall conduct monthly inspections of the bag filters, the filter suspension system, the enclosure seals, and the pulsing system to ensure there are no leaks and that the pulsing system is functioning properly.
[District Rule 1302]

5. The o/o shall conduct a minimum program of inspection and maintenance on this equipment. The o/o shall maintain current and on-site for two (2) years a log of the following information, which shall be provided to District personnel upon request:

- a) Date of bag replacements;
- b) Results of all monthly inspections as required by Condition 4;
- c) Date and nature of any system repairs.

[District Rule 204]

6. This equipment shall only discharge to sealed containers.

[District Rule 204]

7. This equipment does not require a regularly scheduled emission compliance test. However, emission compliance testing may be required at the discretion of the District.

[District Rule 1303(B) - Offsets, basis: <15tpy of PM-10]

8. This equipment shall not be operated until baghouse under District Permit C014592 and Architectural Concrete Batch Plant under District Permit B014591 have been permanently removed from service. Facility shall notify the District once baghouse under District Permit C014592 and Architectural Concrete Batch Plant under District Permit B014591 have been removed from service. Notification can be in the form of email, sent to engineering@mdaqmd.ca.gov. (NOTE: Cancellation was processed on 10/1/2025)

[District Rules 204, 1303(B) - Offsets, basis: <15tpy of PM-10, and 1304]

9. This facility shall not emit equal to or greater than 15 tons of PM-10 per each consecutive 12-month period. Before this limit can be increased, the facility is required to submit to the District an application to modify the permit, which will require the use of Emission Reduction Credits or Simultaneous Emission Reductions at the facility.

[District Rule 1303 - Offsets]

10. A facility wide Comprehensive Emission Inventory Report (CEIR) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), Health & Safety Code 39607 & 44341-44342, 17 CCR 93400 et seq., and 40 CFR 51, Subpart A]
