# AUTHORITY TO CONSTRUCT C015693

If construction is not completed by the expiration date of this permit, it may be renewed for one additional year upon payment of applicable fees. Any additional extension will require the written approval of the Air Pollution Control Officer. This Authority to Construct may serve as a temporary Permit to Operate provided the APCO is given prior notice of intent to operate and the Permit to Operate is not specifically denied.

## EXPIRES LAST DAY OF: SEPTEMBER 2027

## OWNER OF OPERATOR (Co.#3142)

K & L Contracting, Inc.
P.O. Box 310326
Fontana, CA 92331

## EQUIPMENT LOCATION (Fac.#4615)

K & L Contracting, Inc. - LS #1
6704 Silverwood Trail
Hesperia, CA 92345

**Description:**
SCRUBBER, ODOR CONTROL (H2S) consisting of: A Syneco Systems Peacemaker series converting dry air scrubber size TBD with a TBD exhaust rate. Utilizing a 2-stage system of activated carbon and proprietary materials to remove more than 99% of odor causing H2S and mercaptans.

## CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accordance with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit. [District Rule 204]

2. This equipment shall control emissions from and be operated concurrent with the lift station it is remediating odors for. The unit should be energized and running 24 hours/day and 8,760 hours per year except in the case of maintenance or a breakdown. [District Rule 204]

3. The owner/operator shall conduct odor surveys (smell test) at this facility's property line on a monthly basis, or more frequently as defined by the District. Any detection of odor shall be documented and corrective action shall be taken within 24 hours to reduce the

UNOFFICIAL

odors at the property line to below detectable limits.
[District Rule 402]

4. The converting dry air scrubber media shall be replaced before complete depletion in accordance with the manufacturer's specifications. The facility shall notify the District prior to adsorption media replacement and/or upon odor breakthrough; defined as when odors are detectable at the facility fence line.
[District Rule 402 and 204]

5. The owner/operator shall maintain a log on-site which includes at a minimum:
a. Records of any maintenance, malfunction, downtime, and repairs (including the adsorption media change outs);
b. Record of all odor complaints and corrective actions as necessary;
c. Results of fence line odor surveys;

This log shall be maintained on-site for a minimum of two (2) years and provided to District, State, or Federal personnel upon request.
[District Rule 204]

6. In the event of any equipment malfunction or breakdown as defined in District Rule 430, the event must be reported to the District within one hour. All compliance notifications and results may be submitted electronically to reporting@mdaqmd.ca.gov.
[District Rule 430]

7. This equipment does not require regular emissions testing however testing may be required at District discretion.
[District Rule 204]

8. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request. For the purposes of CEI, Facility is defined as every structure, appurtenance, installation, and improvement on land which is associated with a source of air releases or potential air releases of a hazardous material.
[District Rule 107(b); H&S Code 39607 & 44341-44342; 17 CCR 93400 et seq.; and 40 CFR 51, Subpart A]
