760.245.1661 -- 800.635.4617 -- FAX 760.245.2022

RENEWAL

S013638

Renewal type Permit has no description information.

EXPIRES LAST DAY OF: JUNE 2026

OWNER OF OPERATOR (Co.#2549)

West Coast Metalworks
16701 Chestnut Street, Suite #1
Hesperia, CA 92345

EQUIPMENT LOCATION (Fac.#3964)

West Coast Metal Works
16701 Chestnut Street, Suite #1
Hesperia, CA 92345

Description:

SPRAY BOOTH AND CURING OVEN, POWDER COATING consisting of: A TBD manufactured floor booth, Model no. TBD, Serial no. TBD, 10' W by 20' L by 10' H, powered by a 30 inch diameter 3 hp exhaust fan, and integral natural gas fired curing oven rated at 800,000 Btu/hr.

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.
[District Rule 204]
2. The spray booth enclosure discharge filters shall be installed and maintained in a tightly mounted and dimensionally stable condition, free from excessive deposits or interference with airflow passages. The differential pressure across the discharge filters shall be maintained within the recommendations by the manufacturer's specifications.
[District Rule 204]
3. All coatings, diluents, thinners and solvents shall comply with District Rules 442 and 1115 as applicable. These rules pertain to Usage of Solvents and Metal Parts & Products Coatings Operations, respectively.
[District Rule 442 - Usage of Solvents and District Rule 1115 - Metal Parts & Products Coating Operations]

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 3479

SCC: 40202501

Location/UTM(Km):
473E/3809N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Executive Director

4. Pursuant to Rule 1115, the owner/operator shall not apply any Coating to Metal Parts and Products unless Electrostatic Spray equipment is used, operated in accordance with the manufacturer's recommendations. Any alternate Coating applications must be demonstrated to the satisfaction of the APCO pursuant to Rule 1115, and which written approval of the APCO has been obtained.
[District Rule 1115 - Metal Parts & Products Coating Operations]

5. Based on the Potential to Emit from this facility, all discharged Volatile Organic Compounds (VOC) into the atmosphere from all VOC-containing materials, Emissions Units, equipment or processes, must not be in excess of 540 kilograms (1,190 pounds) per month.
[District Rule 442 - Usage of Solvents]

6. The total quantity of powder coatings used in this equipment shall not exceed 100 pounds in any one day.
[District Rule 204 - Permit Conditions]

7. This facility shall not spray apply coatings to metal and plastic surfaces that contain compounds of chromium (Cr), lead (Pb), manganese (Mn), nickel (Ni), or cadmium (Cd); nor, conduct any stripping operations on any substrate that use methylenechloride (MeCl)-containing paint stripping formulations. Contact the MDAQMD if this facility will use the above toxic metal and/or MeCl for additional permits requirements.
[40 CFR 63, Subpart HHHHHH]

8. This curing oven equipment must only be fired on utility grade liquefied petroleum gas.
[District Rule 431]

9. The owner/operator shall maintain a daily operational log for this equipment, which, at a minimum, contains the information specified below, as applicable. This log shall be maintained current and on-site for a minimum of five (5) years and shall be provided to District, State or Federal personnel upon request:

- Current list of powders, coatings, and solvents used for cleanup, surface preparation, or paint removal.
- Current coating Safety Data Sheets (SDS), or invoice providing material name, manufacturer, identification, material application, and VOC content (in pounds per pound, pounds per gallon, or grams per liter) for each powder, coating, and solvent used.
- Quantity of each powder, coating, and solvent used on a daily basis, and its VOC content in pounds or gallons. Annual (calendar year) totals must be kept as part of this log.
- Any procedures used to account for control device efficiencies and/or waste disposal.

[District Rule 1115 - Metal Parts & Products Coating Operations]

10. The emissions from this facility shall be less than the following limits:

- 8 tons per year of any single HAP or 20 tons per year of any combination of HAPs on a 12 month calendar year basis.
- 12 tons of PM10 per year calculated on a rolling twelve month summary basis.
- 20 tons of NOx per year calculated on a rolling twelve month summary basis.
- 20 tons of VOC per year calculated on a rolling twelve month summary basis.
- 80 tons of CO per year calculated on a rolling twelve month summary basis.
- 20 tons of SOx per year calculated on a rolling twelve month summary basis.

Compliance with this limit shall be verified with an emissions inventory as requested by the District.
[District Rule 1302: basis - Minor Source Designation]

11. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.
[District Rule 107(b); H&S Code 39607 & 44341-44342; 17 CCR 93400 et seq.; and 40 CFR 51, Subpart A]
