Kramer Junction, CA 93516

Description:

NATURAL GAS ODORANT STORAGE AND INJECTION SYSTEM consisting of: NJEX Model YZ 8300 odorant injection system. This unit is electrically operated but odorant injection is achieved with a pipeline-pressure driven pump (NJEX 8000 or equivalent). This permit includes the injection system (solar panel, odorant control system, odorant metering system, odorant filtering equipment, and related appurtenances). Facility Elevation is 2496 feet above sea level.

EQUIPMENT

Capacity	Equipment Description
1	One (1) 1000 gallon Odorant Storage Tank
2	One (1) 2000 gallon Odorant Storage Tank

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.
[District Rule 1302(C)(2)(a)]

Fee Schedule: 5 (a)

Rating: 3000 gallons

SIC: 4923

SCC: 30600811

Location/UTM(Km): 455E/3870N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
