Description:

STORAGE TANKS, LIQUID (2 - RAFFENE OIL) consisting of: One 7,144 gallon capacity vertical cylindrical tank used to store raffene oil. Tank is equipped with steam coils used to heat the resin solution to 100°F.

CONDITIONS:

1. Operation of this equipment shall be conducted in compliance with data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
2. The owner/operator (o/o) shall operate this equipment in strict accord with the manufacturer's specification and/or sound engineering principles.
3. This tank is for the storage of raffene oil only.
4. This equipment shall be used for storage only and material stored in these tanks will be transferred, in closed piping, to adhesive manufacturing equipment.
5. A log shall be maintained which contains at least the following:
 - a. Date of inspection;
 - b. All repairs/additions made to equipment.

Fee Schedule: 5 (a)

Rating: 7100 gallons

SIC: 2891

SCC: 99999999

Location/UTM(Km):
460E/3822N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
