**Eldon Heaston**  
Air Pollution Control Officer

1. The owner/operator shall operate/maintain this equipment in strict accord with the recommendations of the manufacturer/supplier and/or sound engineering principles.
  
2. This equipment shall not be operated unless it is vented to air pollution control equipment operating under valid District permit C001013 (2-DC-1).
  
3. Materials processed shall contain sufficient natural or added moisture to ensure compliance with District Rules 401, 402, and 403. Sufficient water and equipment to properly wet the material being processed shall be maintained in operable condition on-site and used as necessary to assure compliance.
  
4. Process rate shall not exceed equipment rating of 1,975 tons per hour. A daily log of material processed (tons), actual or estimated, shall be maintained on-site for five years and provided to District personnel on request.
