UNOFFICIAL

2. The primary fuel used is JP-5. However, JP-4, JP-8, B-20 and recovered off-spec fuels of these types (excluding hazardous wastes or gasoline), may be used if these are the fuels handled by the unit being trained.

3. Before other liquids can be used in this live fire pit the permittee must receive written approval from this District.

4. The District must be notified by telephone (800) 635-4617 at least 24 hours prior to commencing each live fire training exercise.

5. Live fire training exercises shall only be conducted on designated burn days as designated by the District and/or CARB.

6. Written records shall be kept for each day and shall be maintained on-site for at least two (2) years and shall be made available to the District upon request. The records shall include the following:
A. Time and duration of each training exercise,
B. Type and quantity of all materials burned,
C. Type and quantity of smoke agent used,
D. Unit(s) or group(s) being trained,
E. Purpose of the training exercise,
F. Number of persons trained,
G. Person authorizing the training exercise

7. As part of the AB2588 program the o/o must determine the amount of criteria and toxic pollutants emmitted from this live fire burn pit.
