Brad Poiriez
Air Pollution Control Officer

2.All outside conveyors, excluding the stacker/reclaimer yard conveyor shall be covered.
[District Rules 204 and 1303]

3.Water sprays shall be installed, operated and maintained on the receiving hopper under the railcar dump. These sprays shall be used as necessary to prevent violations of District rules 401, 402, and 403.
[District Rules 204 and 1303]

4.A log of operations shall be kept by the o/o for this equipment. The log shall record at least the following:
a. Date of coal train delivery;
b. Number of cars delivered, and
c. Number of tons of coal per car.
[District Rules 204 and 1303]

5.With prior written approval, or if there is a breakdown, consistent with District rule 430, of the stacker/reclaimer yard equipment, other means, which include but is not limited to the use of front-end loaders, may be used to transport coal to the Emergency Reclaim Hopper, prior to its entrance into the kiln.
[District Rules 204 and 1303]

6.The Emergency Reclaim Hopper may be used to deliver petroleum coke (with a moisture content of at least eight (8) percent) to the conveyor.
[District Rules 204 and 1303]

7.The o/o will ensure that the petroleum coke storage pile (or delivered petroleum coke) contains sufficient moisture through the use of water sprays or other means. Moisture content shall be verified through moisture content tests; a petroleum coke moisture content test shall be performed during each week petroleum coke is used as fuel (and the date and results of each test shall be maintained on-site for five (5) years).
[District Rules 204 and 1303]

8.A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.
[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
