Hesperia, CA 92345

Description:
CEMENT SLURRY PLANT consisting of: A Liebherr Cement Slurry Modular Plant with production capacity of ~8 cu yds/day, having an integral 330 sq ft pulse jet bin vent, a 8" x 28' screw conveyor, 1,100 pound cement weigh bin, 551 pound water weigh bin, two sand bins, two discharge belts, and control room.

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.
[District Rule 1302]

2. The owner/operator (o/o) shall ensure that the materials used in the equipment contain sufficient natural and/or added moisture to preclude violations of District rules 401, 402 and 403. These rules pertain to opacity, dust blowing off of the property and nuisance. The o/o shall maintain sufficient water and equipment for its application in operable condition and on-site, and use it as necessary on material piles, haul roads, and in the plant to prevent violations of the above rules.
[District Rule 1302]

Fee Schedule: 1 (a)	Rating: 75 bhp	SIC: 3498	SCC: 30501199	Location/UTM(Km): 474E/3810N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

UNOFFICIAL

3. This equipment and associated operations shall not discharge an exhaust stream that exhibits opacity greater than twenty percent (Ringlemann 1).
[District Rules 204 and 401]

4. The owner/operator shall conduct, at a minimum, a monthly visible emissions determinations using USEPA Method 22 for a minimum of five (5) minutes. If VE occurs the operator is required to implement corrective action within 24 hours to eliminate the VE and must record the corrective action, including the date and time the corrective action was taken.
[District Rule 204]

5. A daily production and operations log (in electronic or hardcopy format) shall be maintained current and on-site for two (2) years, and shall be provided to District personnel upon request. This log shall contain, at a minimum:
a. Daily cubic yards batched (summarized monthly).
b. Monthly visible emissions determinations result and correction action taken (if any).
c. Date and nature of any system repairs.
[District Rule 204]

6. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.
[District Rule 107(b); H&S Code 39607 & 44341-44342; and 40 CFR 51, Subpart A]
