2. This equipment shall be in use any time the cement silo (Permit T001895) is in operation.
[District Rules 204 and 1303]

3. The owner/operator (o/o) shall not operate this equipment unless a device capable to monitor the pressure differential across the baghouse is installed and maintained in operable condition, as described by the manufacturer's specifications.
[District Rules 204 and 1303]

4. The owner/operator shall have a continuing program of maintenance/inspections in accord with manufacturer's recommendations and specifications which ensures compliance with District Rules. The results of the inspections shall be logged with the log kept on site for a minimum of two (2) years. This log shall be provided to District personnel upon request.
[District Rule 401]

5. This air pollution control device and associated equipment shall be operated such that no visible emissions from the equipment result in an opacity greater than 20 percent on the Ringelmann Chart for a period or periods aggregating more than three (3) minutes in any one hour.
[District Rule 401(a)]

6. The owner/operator shall conduct a minimum program of inspection and maintenance on this equipment. The owner/operator shall maintain current and on-site for two (2) years a log of the following information, which shall be provided to District personnel upon request:

a. Weekly Visible Emission Determination (VED) using the following procedures:

1. Ensure that the observer's back is to the sun or artificial light.
2. The observation spot provides a clear view of the emission point(s).
3. Observe the emission point(s) for a period of one minute.
4. Designate the emission point(s) as "dusting" or "not dusting". If "dusting" is occurring, owner/operator must conduct a Visible Emission Evaluation using USEPA Method 22, and USEPA Method 9, on each dusting emission point if necessary, or shut down the equipment immediately and effect the required equipment repairs.
5. Log the results of these observations; include the date and times that the observations were conducted; provide these logs to District personnel upon request.

b. Date and result of quarterly cartridge and cartridge support system inspection;

c. Date of cartridge replacements; and,

d. Date and nature of any system repairs.

[District Rule 1303]

7. The owner/operator shall maintain on-site, as a minimum, an inventory of replacement filter cartridges that assures compliance these conditions.

[District Rule 1302]

8. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
