Description:

SCRUBBER - DRY SPRAY FOR SULFUR DIOXIDE CONTROLLING THE FLOAT GLASS FURNACE (DISTRICT PERMIT B001726) consisting of: a United McGill unit, with the following design characteristics: Scrubbing Solution is aqueous 1.5% sodium carbonate; Flow rate of 2-6 gal/min; there are 2 Water Pumps, one standby each at 15 hp; there are 2 Slurry Pumps, one standby, each at 3 hp; there are one storage tank mixer and one slurry tank mixer, each at 1/3 hp and one feeder to the mixer at 1/4 hp.

CONDITIONS:

1. This unit shall be operated and maintained in strict accord with the recommendations of the manufacturer/supplier and/or sound engineering principles consistent with minimum emissions of contaminants.
2. Routine and/or preventative maintenance, which requires this unit to be off line or bypassed shall be done in accord with Condition no. 6 of District permit B001726. This condition is repeated here as follows:

During routine or preventative maintenance of the three add-on pollution controls and during periods of regenerator clean-out, the owner/operator shall be exempt from the emissions limits specified in condition 7 (of District permit B001796) provided the following are complied with:

- A. Maintenance in any twelve month period does not exceed six days (144 hours);
- B. Maintenance shall be performed twice in any twelve month period for not more than 72 hours for each maintenance activity, unless prior written approval from the APCO has been obtained;
- C. Maintenance shall be conducted in a manner consistent with good air pollution practices for minimizing emissions to the atmosphere;
- D. Procedures for each maintenance shutdown shall be submitted to the District for approval at least 10 days prior to a shutdown. If 10 days is impractical, e.g., in the case of an emergency, the o/o shall notify the District by telephone and submit the planned procedures for the maintenance as soon as practicable; and

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 3211

SCC: 9999999

Location/UTM(Km):
474E/3815N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
