UNOFFICIAL

1. The owner/operator shall operate and maintain this dust collector in strict accord with those recommendations of the manufacturer/supplier, and sound engineering principles.
[District Rule 204]

2. The operating instructions shall be immediately available for use by the operator and provided to District, state, or federal personnel upon request.
[District Rule 204]

3. This baghouse shall operate concurrently with the Consolidated Packaging & Warehouse Facility under valid District permit B003655.
[District Rule 204]

4. The owner/operator shall have a continuing program of maintenance/inspections in accord with manufacturer's recommendations and specification which ensures compliance with District Rules. This program shall include, but not be limited to, regular opacity readings, pressure differential measurements, and maintenance inspections. Logging of data shall be required with the log kept on site for a minimum of five (5) years. This log shall be provided to District, state or federal personnel on request.
[District Rule 204]

5. The owner/operator shall conduct compliance tests relative to District Rules 404 and 405. Testing shall be conducted at least once every sixty (60) months starting in 1994.

The owner/operator must submit a compliance/source test protocol at least thirty (30) days prior to the compliance/source test date. The owner/operator must conduct all required compliance/source tests in accordance with a District-approved test protocol. The owner/operator must notify the District a minimum of ten (10) days prior to the compliance/source test date so that an observer may be present. The final compliance/source test results must be submitted to the District within forty-five (45) days of completion of the test. All compliance/source test notifications, protocols, and results may be submitted electronically to reporting@mdaqmd.ca.gov.
[District Rules 404 and 405; 40 CFR 60.8 and 60.675]

6. This baghouse shall not discharge into the atmosphere an exhaust stream that exhibits greater than seven (7) percent opacity.
[40 CFR 60.672(a) - Table 2]

7. The maximum grain loading in the stack of this baghouse shall not exceed 0.022 grains per dscf.
[40 CFR 60.672(a) - Table 2]
