Description:

BAGHOUSE (SALT WELLS BLDG 15980) consisting of: A Mikro Pulsaire, model 20-6, serial number 64H440. This unit is rated to be 99.4% efficient and is equipped with cloth socks (fine mesh 1-3 microns). It is exhausted by a 2 hp electric motor, producing an airflow of 1500 ACFM. This baghouse is primarily operated as a safety device to contain potentially explosive materials and only secondarily as an air pollution control device.

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accordance with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit. [District Rule 204; 40 CFR 63.6640(a)]
2. The baghouse under either valid Permit C003157 or C004010 shall be properly functioning and in operation when either one of the mills described in District Permit B003155 or the mill described in District Permit B003156 are operating. [District Rule 204]
3. An operating air lock device shall be fitted in each material discharge port. [District Rule 204]

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 9711

SCC: 30180001

Location/UTM(Km):
450E/3946N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

4. The owner/operator shall maintain an operations log for this equipment current and on-site (or at a central location) for a minimum of five (5) years, and this log shall be provided to District, State and Federal personnel upon request. The log shall include, at a minimum, the information specified below :

(a) Date and duration of each use; and

(b) Date and description of all filter bag replacements.

[District Rule 204; 40 CFR 70.6(a)(3)(ii)(b)]

5. A facility wide Comprehensive Emission Inventory (CEI) Plan and Report for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342 and 40 CFR 51, Subpart A]
