6. The flowrate of scrubber solution supplying the scrubber nozzles shall be at least 5 gallons per minute when the equipment is in operation.
7. Every three years commencing September 28, 2010, the o/o shall conduct an emissions test for those compounds described in condition 4 above, in strict accord with all the procedures delineated in the District's "Compliance Test Procedural Manual". This testing is necessary to demonstrate compliance with permit condition 4 (District Rule 406).  - Scrubber solution weekly flow rate readings.
 - Daily record of NaOH concentration (in weight percent) in the scrubber solution.
 - The results of the triennial compliance tests.
9. (a) Mountain Pass Mine Facility Emissions Limits: The total criteria pollutant emissions for the Mountain Pass Mine shall be less than: 42 tons per year of NO_x, 25 tons per year of VOC, 46 tons per year of PM₁₀, 25 tons per year of SO_x, and 100 tons per year of CO. The total emissions of Hazardous Air Pollutants (HAPs) for the Mountain Pass Mine shall be less than 10 tons per year for any single HAP and 25 tons per year for any combination of HAPs calculated on an annual basis. Generic or default emission factors shall not be used without approval from the District. The Comprehensive Emission Inventory Plan (CEIP) shall be due no later than March 31 of the year following the year of the actual emissions to be reported. Emissions will be calculated separately for each emissions source on a monthly basis and used to calculate the 12 month rolling annual total. All emissions sources including all permit units will be summed on a monthly basis and used to calculate the 12 month rolling annual total. The permit unit and facilitywide monthly emissions, 12 month rolling annual emissions total, and approved CEIR shall be kept on site and provided to District personnel upon request.
- (c) A facility wide Comprehensive Emission Inventory (CEIR) must be submitted to the District, in a format approved by the District, for all emitted criteria air pollutant on a yearly basis, and every three years for toxic air pollutants, which is to be received by the District no later than April 30 of the following year.
