Description:

OPACITY FILTER consisting of: Portable opacity filter unit number 803, custom made by Manhole Adjusting Inc. 10' 0" wide x 11' 6" long x 9' 6" high, and the necessary collection hood, ducting, electrical and controls. Exhaust system with six-10 cc each blowers. This equipment controls opacity emissions from an asphalt rubber hot oil spreader.

CONDITIONS:

1. Operation and maintenance of this equipment shall be in strict accord with the recommendations of the manufacturer and those specifications and/or data submitted with the application for this permit unless specifically exempted hereunder.
2. Visible emissions shall not exceed those described in District rule 401.
3. A log which at a minimum records the maintenance, repair and replacements of the oil mist collectors shall be kept. The log shall be maintained current for a minimum of 2 years and provided to District personnel on request. The log shall be either kept on-site or provided to the District along with the notification of use.
4. The owner/operator, shall notify the District Engineering staff within 5 days of intended start-up of the equipment at each new location. Notification shall be by telephone and shall be followed up by email or letter. The purpose of this notification is to allow verification of equipment.

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 1611

SCC: 99999999

Location/UTM(Km):
473E/3956N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.
