Inactive type Permit has no description information.

EXPIRES LAST DAY OF: MAY 2016

OWNER OF OPERATOR (Co.#813)

Northstar Demolition and Remediation, LP
404 North Berry Street
Brea, CA 92821-3104

EQUIPMENT LOCATION (Fac.#1539)

Northstar Demolition and Remediation - MDAQMD
District Wide
MDAQMD, CA 92392

Description:

HEPA VACUUM consisting of: Pullman-Holt Model 102ASB Dual HEPA Vac, Serial No. V-10954 with primary and secondary filtration. Primary filtration consists of a Dacron filter bag that covers the entire spacer sleeve and sheds dust to maintain maximum vacuum efficiency. Secondary filtration consists of two (2) HEPA filters, one on the intake side of the motor, and the other on the exhaust side of the motor. Both HEPA filters are 99.97% efficient for collection of all particles whose mean diameter is greater than or equal to 0.3 microns. The vacuum is rated at 2bhp and 110cfm.

CONDITIONS:

1. This equipment shall be installed, operated and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit.
2. After each abatement use, this equipment must be emptied and cleaned within a negative air enclosure, and filters and waste collected with this equipment must be disposed as friable asbestos waste.
[District Rule 1320 - New Source Review For Toxic Air Contaminants and 40 CFR 61, Subpart M - NESHAP for Asbestos]
3. This HEPA Vac machine shall be tested and checked for leakage and rupture after each HEPA filter change and prior to commencement of any abatement project.
4. The operator shall keep adequate records for this HEPA Vac machine to verify:
 - a. The number of working hours per day involving asbestos removal; and,

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 1795

SCC: 50300901

Location/UTM(Km):
473E/3956N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Air Pollution Control Officer

- b. The date and time of each HEPA filter replacement; and,
- c. The date and time of each machine addition/replacement.

Records shall be maintained for a period of two (2) years and made available to District personnel upon request.

5. This unit may, at the discretion of the owner/operator, be used on any commercial asbestos abatement project for a demolition or renovation pursuant to 40 CFR 61, Subpart M - National Emission Standard for Asbestos if the project is properly notified to the District. Proper notification must be consistent with 40 CFR 61, Subpart M, a minimum of ten (10) working days prior to actual placement of the unit.

6. This equipment and/or operations pertaining to the use of this equipment may be subject to the requirements of the National Emission Standard for Hazardous Air Pollutants, Subpart M - NESHAP for Asbestos (40 CFR 61). In the event of conflict between these conditions and the NESHAP, the more stringent requirements shall govern.
