INACTIVE

C014119

Inactive type Permit has no description information.

EXPIRES LAST DAY OF: JUNE 2021

OWNER OF OPERATOR (Co.#2615)

TBC - The Boring Company
15709 Impact Way Bldg 2 Ste 200
Plugerville, TX 78660

EQUIPMENT LOCATION (Fac.#4039)

TBC - The Boring Company
16249 Adelanto Road
Adelanto, CA 92301

Description:

GROUT PLANT DUST COLLECTOR consisting of: WAMGROUP SILOTOP - SILAB14

CONDITIONS:

1. This dust collector must be installed, operated, and maintained in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of contaminants. Unless otherwise noted, this equipment shall also be operated in accordance with all data and specifications submitted with the application for this permit. [District Rule 204]
2. This dust collector must be operated whenever the grout plant silos permitted under District permit T014121 are in operation. [District Rules 204 and 1303]
3. The owner/operator must conduct a minimum program of inspection and maintenance on this equipment. The owner/operator must maintain, current and on-site, for two (2) years a log of the following information, which shall be provided to District personnel upon request:
 - a. Visible Emission Determination (VED) using the following procedures when the silos are being filled:
 - (1) Ensure that the observer's back is to the sun or artificial light.
 - (2) The observation spot provides a clear view of the emission point(s).
 - (3) Observe the emission point(s) for a period of one minute.
 - (4) Designate the emission point(s) as "dusting" or "not dusting". If "dusting" is occurring, owner/operator must conduct a Visible

Fee Schedule: 7 (h)

Rating: 1 device

SIC: 1622

SCC: 30501101

Location/UTM(Km):
463E/3822N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Emission Evaluation using USEPA Method 22, and USEPA Method 9, on each dusting emission point if necessary, or shut down the equipment immediately and effect the required equipment repairs.

(5) Log the results of these observations; include the date and times that the observations were conducted; date and nature of any system repairs.

b. Weekly reading of the pressure differential value (date and value);

c. Annual cartridge/filter and support system inspection date and results;

d. Date of cartridge/filter replacements; and,

e. Date and nature of any system repairs.

[District Rules 1303]

4. This dust collector and associated equipment must be operated such that no visible emissions from the equipment result in an opacity greater than 20 percent on the Ringelmann Chart for a period or periods aggregating more than three (3) minutes in any one hour.

[District Rule 401(a)]

5. The owner/operator must maintain, on-site, a minimum inventory of replacement cartridges/filters to assure compliance with these conditions.

[District Rule 1303(A)]

6. A facility wide Comprehensive Emission Inventory (CEI) for all emitted criteria and toxic air pollutants must be submitted to the District, in a format approved by the District, upon District request.

[District Rule 107(b), H&S Code 39607 & 44341-44342, and 40 CFR 51, Subpart A]
