AUTHORITY TO CONSTRUCT DCP000102

If construction is not completed by the expiration date of this permit, it may be renewed for one additional year upon payment of applicable fees. Any additional extension will require the written approval of the Air Pollution Control Officer. This Authority to Construct may serve as a temporary Permit to Operate provided the APCO is given prior notice of intent to operate and the Permit to Operate is not specifically denied.

EXPIRES LAST DAY OF: OCTOBER 2027

OWNER OF OPERATOR (Co.#90)

Omya (California) Inc
7299 Crystal Creek Road
Lucerne Valley, CA 92356

EQUIPMENT LOCATION (Fac.#461)

Omya - Main Plant
7299 Crystal Creek Road
Lucerne Valley, CA 92356

Description:
DUST CONTROL PLAN (RULE 403(C)(8) MINING, STONE, ASPHALT OR CLAY) consisting of: an 466 acre limestone processing facility (including quarries) in Lucerne Valley south of State Highway 18 on Crystal Creek Road. Facility contact is Craig Maetzold (503) 535-6930 and 24 hour contact is Mill Operator (802) 855-3036. This Dust Control Plan and project site was inspected by District staff as required by Rule 403(D)(7) on [date tbd].

EQUIPMENT

Capacity	Equipment Description
0	Water Application Equipment - two 3000 gallon water trucks used daily for 24 hours
0	Water Supply - two on-site 3000 gpm wells (Craig Martzold 513-535-6930)
0	Dust Suppressant Products - water, chemical stabilization and revegetation
0	Other Dust Control Methods - stabilized well-traveled heavy vehicle industrial roads, covered haul trucks, active watering of visibly dusting storage piles, stabilization of inactive storage piles.
0	Treatment For Preventing Carryout and Trackout - vacuum sweeping on paved roads, rumble plates or trackout removal systems at paved surface interfaces, and trackout/bulk material spill clean-up on public paved roads within 24 hours
0	Bulk Material Dust Control - cover or suppress outdoor conveyors, use of belt cleaners and conveyor return scrapers, dust suppression system on bulk material transfer points

Fee Schedule: 12 (N/A) Rating: 1 plan SIC: 1422 SCC: 2311000100 Location/UTM(Km): 505E/3805N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

UNOFFICIAL

CONDITIONS:

1. The owner/operator (o/o) shall comply with the dust control plan application submitted in response to Rule 403, as approved by the Air Pollution Control Officer (APCO) and incorporated into this Dust Control Plan (DCP) by reference, including those specific elements regarding unpaved road stabilization, exterior belt conveyor dust suppression, open storage pile management, loaded haul vehicle freeboard on public paved roads, transfer point dust suppression, unpaved operations area stabilization, paved surface spill cleanup, public paved road trackout prevention/cleanup, and belt conveyor spillage minimization.
[Rule 403(C)(8) and (D)(1)]

2. The o/o shall install and maintain signage in accordance with Rule 403 Attachment B and as approved by the Air Pollution Control Officer (APCO).
[Rule 403(D)(3)]

3. This DCP indicates that the dust control plan application submitted in response to Rule 403 has been conditionally approved by the APCO. Full approval of this DCP is contingent upon satisfying an initial site inspection by District staff. This DCP remains valid until the termination of all Active Operations as defined in Rule 403, unless disapproved by the APCO or not recertified in accordance with Rule 403.
[Rule 403(D)(5)]

4. The o/o must notify the Mojave Desert Air Quality Management District (District) within ten days if a significant change occurs to the project or operations covered by this DCP (by mail, facsimile or email to DCP@mdaqmd.ca.gov). An appropriately modified dust control plan application must be submitted to the District within thirty days of the change.
[Rule 403(D)(8)]

5. The o/o shall recertify this DCP annually through response to the renewal invoice. The response may consist of a statement of 'no change' if there has been no change to sources, control measures or special circumstances as detailed in the approved dust control plan application (in which case resubmittal/renewal fees shall be waived), or 'no longer active' as specified below.
[Rule 403(D)(9)]

6. The o/o shall notify the APCO in writing (by mail, facsimile or email to DCP@mdaqmd.ca.gov) within thirty days after the project/facility/site no longer qualifies as an Active Operation as defined by Rule 403.
[Rule 403(D)(10)]

7. The o/o shall pay submittal, resubmittal/recertification, site inspection, and site stability inspection fees as specified in Rule 302, Rule 403 and as specified above, or this DCP shall be deemed disapproved by the APCO.
[Rule 403(D)(11)]

8. The o/o shall maintain a copy of the dust control plan application, and records demonstrating compliance with the requirements of this DCP and Rule 403. Compliance demonstration records are required only for those days that a control measure was implemented. Records shall be maintained for at least two years (or through the completion of the project), and shall be provided to District personnel upon request.
[Rule 403(F)(1)]

9. The o/o shall not cause or allow the emissions of fugitive dust from any transport, handling, construction or storage activity so that the fugitive dust is visible in the atmosphere beyond the property line of the emissions source.
[Rule 403(C)(1)]

10. The o/o shall take every reasonable precaution to minimize fugitive dust emissions from wrecking, excavation, grading, clearing of land, and solid waste disposal operations.
[Rule 403(C)(2)]
