Brad Poiriez
Executive Director

1. The owner/operator (o/o) shall maintain this equipment in strict accord with those recommendations of the manufacturer/supplier and/or sound engineering principles which produce the minimum emissions of air contaminants.

2. This equipment shall not be filled unless vented through properly operating silo bin vents and DCL 790 (C008974). This equipment shall discharge only with concurrent operation of DCL 790 (C008974).

3. The owner/operator (o/o) shall maintain on-site a minimum inventory of replacement bags for the silo bin vents that assures compliance with these conditions.

4. The o/o shall conduct a minimum program of inspection and maintenance on the silo bin vents. The o/o shall maintain current and on-site for five (5) years a log of the following information, which shall be provided to District personnel upon request:
 - a. Quarterly bag and bag suspension system inspection date and results;
 - b. Date of bag replacements; and,
 - c. Date and nature of any system repairs.

5. This equipment shall be operated in compliance with applicable requirements of 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants.
