INACTIVE

T011091

Inactive type Permit has no description information.

EXPIRES LAST DAY OF: OCTOBER 2018

OWNER OF OPERATOR (Co.#933)

Q.E.P. Co., Inc.
9486 Holly Road
Adelanto, CA 92301

EQUIPMENT LOCATION (Fac.#1702)

Q.E.P. Co., Inc
9486 Holly Road
Adelanto, CA 92301

Description:

MIX TANK, RESIN consisting of: Vertical tank 14' high and 7.5' diameter, 4,627 gallon capacity, with elliptical bottom and head equipped with mixer. Tank used to combine gum rosin, resin powder and raffene oil. Tank is heated to a maximum temperature of 270°F.

CONDITIONS:

1. Operation of this equipment shall be conducted in compliance with data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
2. This equipment shall be used for the mixing/blending of powdered resin, gum resin and raffene oil. Material blended in these tanks will be transferred, in closed piping, to adhesive manufacturing equipment.
3. The owner/operator (o/o) shall operate this equipment in strict accord with the manufacturer's specification and/or sound engineering principles.
4. This equipment shall not be operated unless vented to properly operating dust collector under District permit C011092.
5. A facility log shall be maintained and provided to the District personnel on request. This log shall be maintained current, on-site for a minimum of two years and shall contain the following:

Fee Schedule: 5 (a)

Rating: 4600 gallons

SIC: 2891

SCC: 99999999

Location/UTM(Km):
460E/3822N

This permit does not authorize the emission of air contaminants in excess of those allowed by law, including Division 26 of the Health and Safety Code of the State of California and the Rules and Regulations of the District. This permit cannot be construed as permission to violate existing laws, ordinances, statutes or regulations of this or other governmental agencies. This permit must be renewed by the expiration date above. If billing for renewal fee required by Rule 301(c) is not received by expiration date above, please contact the District.

Eldon Heaston
Air Pollution Control Officer

- a. Daily type and amount for each dry material used in pounds;
- b. A monthly summary of the dry materials added in pounds for the calendar year to date;
- c. Total PM emissions from each permitted process unit in pounds/month;
- d. Monthly - type and amount for each VOC containing material used in pounds; VOC content for each type of VOC containing material used in pounds per gallon
- e. Total VOC emissions in pounds/month
- f. A rolling 12 month monthly summary of the VOC emissions in pounds;
- g. Monthly emissions inventory data for all applicable non-exempt substances used for clean up and or the production of flooring adhesives on a facility wide basis
- h. MSDS for all substances used for clean up and or the production of flooring adhesives on a facility wide basis

6. Total dry materials added to this equipment shall not exceed 20,250 tons per day with the total PM emissions from this equipment less than 25 lbs/day as controlled by the properly operating dust collector under District permit C011092.

7. Total use of raffene oil added to this equipment shall not exceed 1,800,000 gallons per day which will limit VOC emissions from this equipment to than 25 lbs/day.

8. This facility shall emit less than the following on a calendar year basis:

- a. Volatile Organic Compound (VOC) - 20 tons
- b. Particulate Matter less than 10 microns (PM10) - 12 tons, and
- c. Hazardous Air Pollutants (HAP) - 8 tons per year for any single HAP and 20 tons per year for any combination of HAPs.

Compliance shall be demonstrated annually to the District through the submission of a District approved Comprehensive Emission Inventory Report (CEIR) or other District approved equivalent method. The report shall be submitted to the District no later than April 30 of each year.
